

Mataverde® EUROTEC™ DECK SYSTEM

Introducing the Mataverde® EUROTEC® Deck System

Whether you are building a deck over a patio or a new rooftop deck, the Mataverde® EUROTEC® Deck System has the decking materials and structural components to make a new space for your home or building. Choose from any of the Mataverde® Premium Hardwood Decking species to make your new deck a reality.

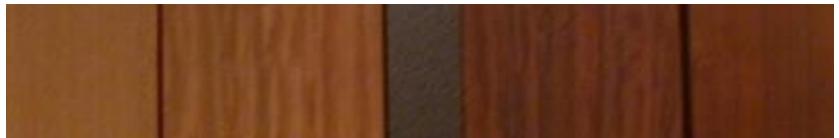

Have an old concrete patio or porch that has seen better days? No problem, build a Mataverde® EUROTEC™ Deck! Do you have a flat roof or balcony that is just begging for you to take in that scenery? No problem, build a Mataverde® EUROTEC™ Deck! Want to build a pedestal system deck but you don't like the look of square deck tiles? No problem, build a Mataverde® EUROTEC™ Deck!

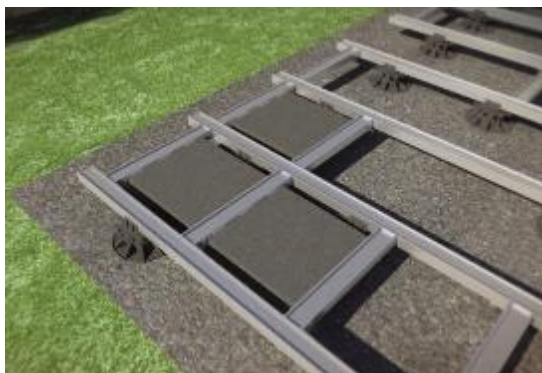

The Mataverde® EUROTEC™ Deck System is carefully engineered to allow you the design flexibility to use full length deck boards. You are no longer required to use deck tiles unless that is what you prefer. Build a deck with a beautiful variety of natural hardwood decking boards and show your true colors.

For strength, durability and a spectacular range of colors and exotic grain variations choose from any species of Mataverde® Premium Hardwood Decking to build your rooftop or patio deck. Here's a few Mataverde decking species:

<u>Mataverde® Premium Hardwood Decking Species</u>	<u>Typical color and graining variations in high density hardwood decking (unfinished on left, oil finish on right)</u>
Mataverde® Premium Ipe Hardwood Decking	
Mataverde® Premium Garapa Hardwood Decking	
Mataverde® Premium Cumaru Hardwood Decking	

Find out how easy it is to design and build the deck of your dreams using the Mataverde® Eurotec® Deck System. Combine the natural splendor, beauty and long lasting durability of Mataverde premium hardwood decking with the precision European engineering of Eurotec components. Choose the decking material, design and style that fits just right for you and your individual project needs.

Whether your project is a rooftop deck or balcony, a patio deck or other raised structure, why not use the best components and materials available. Visit our website for more decking options and information.
